Amicus Brief

Background Work on Mr. Horner (aka Cre3p*) 2018-2020

**During the timeline for the following sequence of events I only knew of Mr. Horner through his cyber alias Cre3p. I had no personal contact with Mr. Horner and did not know his real identity until 2022.*

In 2018 I was given original data for which I was asked to assess potential threat. I reviewed the work to find the suspect (Cre3p) had viewed medical equipment via a URL bypass of the GSA's eCatalog search engine. This raised concerns within the FBI about a possible logic bombe DOS cyberattack.

My report concluded no potential harm. In fact, clear evidence of the opposite was indeed the case because the recall for the intended searches were spaced far enough apart specifically designed not to cause harm. It was a large quantity of foot traffic for the site, much higher than typical, which caused the reason for alarm.

I was informed after this assessment Cre3p was being considered for hire with the FBI. I was then asked to give my opinion on how his technique could be beneficial to the team. My opinion was one of awe. I had never really known of someone that met or even exceeded my own cyber skillset.

My opinion was quite simple; he was good and stayed within legal ramifications necessary. He was also skilled and able to do the opposite of my own cyber skillset. While he approached from a "front door tactic" he did so with precision and skill unknown to most.

Overall opinion was he could be beneficial because while he approached from the front it would be easy to use him as a front person or undercover operative. Should he get into a situation he would be able to remove himself easily.

On later assignment, on August 22, 2020 (while Mr. Horner was incarcerated at St. Vincent's) I was given a piece of code and told it belonged to Cre3p by 3rd in command Brandon Brown. I was given the code in my late husband's Cleveland Clinic hospital room by Mr. Brown while I was tending his bedside during cancer treatments. Ms. Stark (then Mrs. Horner) was also in the room presenting herself

as his cancer trials leader. She quietly tended his bedside, checked his monitors recording data, etc. while Mr. Brown and I reviewed the code.

The code was only a portion from the middle of Mr. Horner's sequence line. I was asked to look closely at his technique, which was a mirrored opposite of my own, and in doing so found that he seems to attack from multiple angles at any one object at a time. By comparison your Honor, I tend to focus on a solo object doing a slow bleed or often leaving a backdoor to simply breach when needed, he would bust the door from all angles possible and leave nothing behind.

On Sun. the 30th of Aug. 2020 while preparing for another trip to Cleveland for my late husband's cancer treatments, I received a call from Amazon founder, Jeff Bezos. He informed me that he had been given my information by his "good friend" Christopher Wray, Director of the FBI and needed my help with a cybersecurity breach consulting gig because I had personal experience with the attacker.

I asked him to send me the information so that I could look it over and see if I could be of assistance. He sent me the information which included the full sequence code to the partial I had received approximately a week prior from Mr. Brown.

Once I arrived back in Cleveland and was at the Cleveland clinic. I began to fully analyze the code and attack by Cre3p. Mr. Brown returned to visit me on September 6, 2020. At this time, I had put together the fact that the code given to me by Mr. brown was a partial of the full code given to me by Mr. Bezos and questioned Mr. Brown about it.

Mr. Brown explained that they had been monitoring Cre3p for possible hire. He said that there was some things that "needed to be sorted out" before any agreements could be reached between the FBI and Cre3p.

I was asked if I saw any threats posed from this hack. Mr. Brown made specific interrogation into my assessment of Mr. Horner's mental health status and whether or not there were any signs of mental instability. The call sequence was a review of children's toys made specifically by the company Step 2.

Nothing "dangerous" was being searched and no hostile intent present. From my multiple years of experience in mental health and psych analysis of individuals, I told Brandon Brown I honestly didn't see anything that would indicate Mr. Horner had any mental health issues that would place him as a threat to our nation. Mr. Stark was again present in the room "tending my late husbands cancer data" during these discussion with Mr. Brown about Mr. Horner's mental health.

I gave a thorough report of my findings and closing of the security breach to Mr. Bezos, closed the file, and collected the \$1.5million cybersecurity subcontractor payment made by Amazon.

My Learning of Mr. Horner as Cre3p

I have since learned the identity of the person I was asked to profile whom up to that point was only known to me as Cre3p. I met Mr. William Easton Horner on January 11, 2022, and we became friends. I would go as far as to say from day one of our friendship felt like I had known him my entire life. I later learned just how close that statement was.

Approximately 2 months into knowing him, Mr. Horner disclosed his hacker alias to me while cross referencing some of my work against cyber work he had done. By this point, I had been reviewing his work for four years with most of it being done in the last two (2020-2022). Mr. Horner was none other than Cre3p. The very man I had sat in my late husband's hospital room and reviewed his work with Brandon Brown and in front of his now ex-wife, Allison Stark.

After learning of Mr. Horner's true identity, I followed up with Dir. Wray during one of our routine check-ins. Mr. Wray disclosed to me the FBI's interference in his divorce proceedings including the expungement of his probate warrant and mental health records from Cuyahoga County Probate Court systems. Their stated reason was because they wanted to recruit Mr. Horner and the FBI and didn't want the smug upon his reputation put forth by a scornful ex-wife. I have since learned, it was nothing more than a cover up of their involvement in Mr. Horner's illegal probating/SWATing.

Mr. Horner and I became romantically involved in March 2022. Shortly thereafter, Brandon Brown led a rouge operation to illegally surveil Mr. Horner and myself. It was at this time Mr. Horner activated his classified MinuteMan credentials with Dir. Wray of the FBI to facilitate the investigation into the corruption surrounding his cases as well as flushing out a mole within the FBI, later identified to be Mr. Brown. I directly facilitated the introduction with Mr. Horner and Dir Wray and can directly attest to the validity of the 'tdcommand1@gmail.com' alias email account belonging to Dir. Wray.

Shortly after setting up the introduction in May 2022, I tendered my resignation with the FBI which Dir. Wray graciously accepted.

Unfortunately, rather than work with Mr. Horner to purge the corruption, Dir. Wray continues to cover up the FBI's corruption of various Cuyahoga County systems. Presumably as a favor to Ms. Stark through their mutual connection, Ms. [REDACTED] a retired regional news anchor in the greater Cleveland Metro and [REDACTED] Dir. Wray admitted to Mr. Horner in writing this direct connection upon his MinuteMan questionings.

In an attempt to intimidate me into not providing this testimony in support of Mr. Horner, Dir. Wray has waged various threats and criminal actions against me including:

1. Stealing approx. \$1million from my private cash on demand checking account with US Bank upon which I have statement of good funds. I have reported this crime to Det. Bacon CSI of the Morristown PD who informed me he identified Mr. Wray as the offending party, took it to the District Attorney, his Chief of Police, the Tenn. Bureau of Investigation all of which say "they don't have the power to take on the FBI so the best thing I can do is just forget about it."
2. Deployed a criminal intelligence operative (CIA/NSA) [REDACTED] Miller (no relation) to bug our home and stalk my and Mr. Horner's movements and actions. There is continuous written reference by Mr. Wray "listening to us fucking." I have filed restraining orders with the Hamblen County Sherriff's who upon serving them to Mr. [REDACTED] Miller found him dead in his truck. This was later revealed

as a forged death by Dir. Wray when ██████████ was identified through facial recognition software on the security footage of Tennessee Jacks stalking me on a night out with friends.

3. I received a direct dead animal death threat with a gloating email by Mr. Wray proud of what they had done. Not long after my car's hydraulic breaks and hydraulic power steering (independent systems) failed simultaneously on a dark curvy road on my way to an early morning nursing shift. This despite routine maintenance completed with no issues identified just weeks before.
4. I receive consistent written communication from Dir. Wray making reference to me "being a whore." He also continuously attempts to drive a wedge between Mr. Horner and I through insinuating infidelity one behalf of one party, or the other, often both. In his most recent communication, Dir. Wray makes specific reference to how one day I'm going to understand how Ms. Stark feels when Mr. Horner leaves me with his kids as a single mother. This despite Mr. Horner being one of the most dedicated fathers I've ever seen.

Wherefore, I offer this eyewitness testimony into Brandon Brown's illegal probating of Mr. Horner, and FBI's subsequent coverup of their involvement in contaminating his divorce proceedings offered through amicus brief.
